

Studio D Merchandise Now Offers Customized Promotional Cloth Face Masks

Los Angeles, May 18, 2020 ([Issuewire.com](https://www.Issuewire.com)) - Studio D Merchandise (<https://studiodmerchandise.com>), an online business based in Los Angeles California, now offers face masks for their business clientele.

The company is known to provide different kinds of customizable promotional items including promotional bags, first-aid kits, blankets, drinkware, stylus, pens, highlighters and custom certificate, and diploma holders that help build brand recognition and awareness.

In light of the current Covid-19 pandemic, the need for protective items and equipment has never been more important. Studio D Merchandise recognizes this need and now offers cotton face masks.

Cloth face masks are required to be worn when entering public areas or other settings where social distancing can't always be practiced. These include grocery stores, farmers markets, pharmacies, and banks.

Cloth face masks are able to help slow the spread of the disease as well as helping asymptomatic carriers prevent accidental transmission to other people.

Using cloth face masks is also crucial to conserve the supply of surgical face masks and N95 respirators which are reserved for the front liners fighting the infectious disease.

Buyers can get the regular cloth face mask made in the USA for as low as \$3.50, or have it customized for \$3.75. With the customized option, companies and organizations can have their logos printed on the face masks, doubling as promotional items.

Not only that, but these face masks from the Studio D Merchandise follows the CDC guidelines:

- A comfortable fit to the face: The face masks measure 11 x 5 inches, covering the bottom of the chin to the top of the nose.
- Layered with multiple fabrics: It is made of comfortable 2-ply cotton cloth.
- Secured with ear loops: Two secure stretchy loops fit any head without the need to adjust.
- Does not restrict comfortable breathing
- Masks are made in the USA
- Soapy water kills the virus. Wash masks in hot soapy water then hang to dry. They are intended to be used many times and they hold their shape

For businesses and companies interested in their products or if you want to request a free quotation on their quality cloth face masks, visit their website or use the contact form below.
