web development Cyprus

Paphos, Aug 6, 2020 (Issuewire.com) - G.K Progress I.T.C Services provides professional website design & development to suits your professional needs, from small business sites to large corporate sites. We are specialized in all the latest web technologies that will suit your website design & development needs and give the appropriate tools for your company or service. Our expertise lies in building user-friendly, eye-catching and efficient websites; plain HTML websites, fully animated flash websites, web 2.0, content management systems and E-commerce websites.

A successful web site should be a balance of sound business strategy, a technology that empowers its users and appeal that brings your message ' home'. **Progress I.T.C Ltd** works collaboratively with clients to understand their organization to develop and implement a customized plan for your next website development project.

Progress I.T.C Ltd is committed to completing a website development projects that translate into powerful sales and informational tools for the client. Each project incorporates business strategy, usability, functionality, marketing and user psychology so that the end result performs as well as it looks.

Your visitors' first impressions of your web site should never be their last. We take into consideration the following when engaged in a project:

- Inclusion of compelling graphics optimized for visitor responsiveness and brand recognition

- Design of a site “ map” that emphasizes usability and positive response
- Deployment of navigation based on successful user experience
- Home page design that quickly engages the visitor and identifies the brand
- Integration of design elements that bolster sales and leads site-wide
- Inclusion of web applications those are essential for business model

Our design related services are diversified and range from designing an aesthetic static website to creating a product based Multimedia Presentation.

Progress I.T.C Ltd holds expertise in using the latest tools like Adobe Photoshop, Adobe Illustrator, Corel Draw, Macromedia Flash, Macromedia Dreamweaver, Microsoft FrontPage, etc to create your exclusive designs. We also ensure that our designs represent the client’s business area perfectly and look compelling to the targeted audience as well.
