

YardView Named Top Logistics Software Provider in 2020

Castle Rock, May 8, 2020 ([IssueWire.com](https://www.issuewire.com)) - Cypress Inland Corporation and their leading best of breed YMS software system, YardViewPro, has been recognized by Inbound Logistics magazine as a Top Logistics IT Provider for 2020. YardView provides total yard visibility with its advanced suite of YMS tools that help operations gain visibility, coordinate all yard operations, and continuously improve yard operations to gain efficiencies and savings.

Felecia Stratton, Editor, Inbound Logistics highlights why YardView was selected. Stratton explains, “Improving end-to-end visibility, achieving closer integration with value chain partners, finding efficient sources of transport lift and inventory scalability have clearly become survival issues for many. Inbound Logistics is proud to honor YardView because its solutions solve specific logistics challenges, improve processes, and create a ripple effect of efficiencies across the entire value chain.

When choosing the 2020 Top 100 Logistics IT Providers, Inbound Logistics editors looked at excellence in optimizing supply chain, logistics and transportation operations. Strategically, editors make their selections based on how transformative solutions impact those business activities driving integration across internal and external business processes.”

“We are honored to be included in the Top Logistics IT providers for the 2020 year,” says, Nathan Harris, President and CEO of YardView. “The YardView team works very hard to continuously improve the software and add more real-world features and functionality to the system. This award is a fitting recognition of their hard work and dedication to our customers and industry. We look forward to continuing our 22-year history of innovation with huge software feature releases this year.”

Methodology

Every April, Inbound Logistics editors recognize 100 logistics IT companies that support and enable logistics excellence. Drawn from a pool of more than 300 companies, using questionnaires, personal interviews, and other research, Inbound Logistics selects the Top 100 Logistics IT Providers who are leading the way in 2020. Editors seek to match readers' fast-changing needs to the capabilities of those companies selected. All companies selected reflect leadership by answering Inbound Logistics readers'

needs for scalability, simplicity, fast ROI, and ease of implementation.

About YardView

Founded in 1998, YardView provides yard management software solutions for enterprises across all industries, enhancing the visibility of assets in the yard. YardView offers real-time data and asset management to support an efficient supply chain while reducing costs. More information about YardView's yard management software is available at www.yardview.com.

About Inbound Logistics

Since its inception in 1981, Inbound Logistics' educational mission is to illustrate the benefits of demand-driven logistics practices, give companies the knowledge to help them match the inbound flow of materials to their demand, and align their business process to support that shift. Inbound Logistics offers real-world examples and decision support to guide businesses to efficiently manage logistics, reduce and speed inventory, and offset rising transport costs, supporting business scalability across their value chain. More information about demand-driven logistics practices is available at www.inboundlogistics.com
