

Ability Games has revolutionized the RMG Industry with "ZERO" platform fee by launching Rummy24 Apps.

Kolkata, Jun 12, 2020 ([Issuewire.com](https://www.issuewire.com)) - Kolkata-based Start-up [Ability Games Private Limited](#), which operates fantasy sports website [11Wickets](#), real money poker portal [PokerLion](#) and sports news portal [Sports.info](#), has announced the launch of their new Rummy app (iOS and Android) called [Rummy24](#).

First time ever [Rummy24](#) is charging "Zero" platform fee and offering lowest cash table to encourage all sort of users to play on the platform. Rummy24 is appealing to both first-time gamers, as well as seasoned card players.

Ability Games wanted to get a deeper look into this unique and thriving market & to understand the formula for entertainment in the very RMG Industry. Hence, this new venture of well-established enterprise in this growing market segment.

Mr. Suraj Chokhani, MD and CEO of Ability Games Pvt. Ltd. gives us a great insight into the dynamics of operating a successful online gaming company.

"Rummy24 is one of our earliest pipeline projects. We always wanted to offer our subscriber-base this classic and popular game, but we also wanted to ensure a strong and impartial gaming experience. Many online gamers complain of how the digital shuffling process is unreliable at times. It gets more difficult when a hand has 13 or 21 cards. We are confident that our algorithm will generate a fair distribution of cards for each hand, regardless of the player profile, their bankroll, or any other factors."

Since there are over 100+ million players in India using real money to play online games competitively this ethical factor creates a strong point. With money at stake, there shouldn't be any hidden factors putting any player at a disadvantage.

But online gaming is not just about a variety of games and intelligent promotions. Technology is a vital cog of this expanding industry. Ability Games owns major stakes in Yudiz Solutions over the past years. These partnerships and acquisitions have added to the AI, digital security, and server capabilities of Ability Games. According to Mr. Chokhani, these strong technological capabilities are the real power behind the success of Rummy24's seamless performance.

Since more people are getting accustomed to a home-bound and digitalized social life, real-money online games like Rummy24 must be both entertaining and ethical. The competitive rush is a great psychological relief, and we're all looking for better ways to de-stress & Ability Games seems to have mastered the craft of creating a diverse, fair and compelling gaming experience by offering seamless gaming experience.
