

Amari Fields Becomes The Youngest Successful Drop-shipper

Generating over \$50,000 in revenue

New York City, Jun 19, 2020 (IssueWire.com) - **Amari Fields** is an American Author, YouTube Star, and considered one of the youngest successful Drop-shippers worldwide. In other words, Amari Fields is an 18-year-old entrepreneur who has already achieved some outstanding accomplishments.

YouTube star Amari Fields jump-started his drop-shipping business in late January of 2020. After a few weeks of studying how it all worked, he started the design process of his website. The design process was an easy part for him because he was experienced, however, he felt the hardest part was going to be the marketing. However, he knew he had a winning product and knew if he could generate traffic to his store the sales would begin rolling. Within his very first Facebook advertisement, Amari Fields finally got his first sale, and he explains this moment as a surreal experience. However, this all changed when one of his fellow YouTube friends showed him the Facebook strategy that would generate him thousands of dollars.

After being shown how to properly set up his Facebook advertisements, Amari Fields started to generate tons of sales daily. Amari Fields went from getting one sale a day to about twenty-plus within the same week. However, his growth didn't even stop there because he got to the point where he was doing \$2,000 per day in daily income. Currently, Amari Fields has generated \$50,000 in profit from his Drop-shipping store and is even expected to scale his store higher by the end of the year. At this rate, Amari Fields is looking at doing \$150,000 in profit in the next few months.

In addition, Amari Fields is currently even working on a guide to help younger people learn how to start Drop-shipping themselves. He has even put out on his social media that he is working on a step by step video guide to explain Drop-shipping in a simple form. As you can see, Amari Fields is an extremely hard-working young man and is even doing this all at such a young age. He even has younger people that look up to him because of everything he has been able to achieve. Amari Fields seems to be inspired, dedicated, and willing to do whatever it takes to become successful. This is what the younger generation should be about!
