

An Inspiration Journey of India's Youngest Ethical Hacker Ayush Patel

Youngest Ethical Hacker in India at the age of 19

Lucknow, Jun 29, 2020 ([IssueWire.com](https://www.issuewire.com)) - Ayush Patel (born 15 October 2001) an Ethical Hacker and cybersecurity expert. He is the founder and CEO of Ayush Security Solutions, an IT security company that partners with businesses. Ayush is one of the youngest ethical hackers India ever had. "Since childhood, I was Passionate to learn about ethical hacking, Programming like stuff. It was quite challenging for me to prove that even without a formal education you can actually pursue a passion to build a fortune," says Ayush.

Ayush spent more and more time reading and learning about machines, technology, and computers. His focus increased by 3x! Soon, he started taking small projects of fixing computers and cleaning up software. His work was appreciated by his friends and teachers.

CONCLUSION

No result is final and it's your passion that takes you ahead in life. **Ayush Patel** is a proven example of this saying. He failed, went down, took risks, and stood up to the challenges of life without fearing consequences. Throughout the journey, his parents stood as pillars of strength and gave wings to the dreams of their child. They believed in Ayush and his abilities and never forced the societal conventions upon him. His story tells us that every failed person has a compartment of success in him that is waiting to be explored...
