Black people spend so much time on social media posting content to get likes, start discussions, and to accumulate friends. But think about it. What has spending all this time on Facebook, Instagram and Twitter did for black people and their pockets? Nothing! The mainstream media platforms have and continue to make billions off the hard work they have put into creating content for them. Why are they not sharing their profits? They should! We, at [Blaqsbi](https://www.blaqsbi.com), believe the people should get paid for the content they create.

Visit the website today and help them grow. Also, be sure to tell your family and friends about this fun and informative platform that is enjoyable to use every day. They encourage participation and if there is a topic that users want to be covered, they can simply let the administrators of the platform know.
