

Deladap brings a Wonderful Mishmash of Gypsy Drifts Braised in EDM Grooves in 'Make Swing Great Again'

By discovering a new type of Urban-Gypsy-Jazz-Pop based music, Deladap becomes famous with the most streamed track 'Make Swing Great Again' on Spotify.

Vienna, Dec 31, 1969 (Issuewire.com) - The elements of music are always evolving with time and modern artists have used this opportunity to delve into the new flow of rhythms continuously. With this liberty to play music beyond any classic rites, Deladap has come up with a sound that is the bridge between the present EDM scape and the past musicality that is strongly endowed with the

Gypsy roots. He has developed a new single ‘[Make Swing Great Again](#)’ that is built with all the nostalgia of a vintage musical frame and the urban euphoria, new swing beats. It is produced by the record label called Chat Chapeau Nouveau and the good news for the EDM lovers is that it is available on Spotify and other digital stores without a hassle.

Deladap is a creative artist who has never stopped learning music through traveling and exploring different cultures and folk songs to come up with enthusiastic sounds in the industry. He has been stealing the show for a long time with sold-out gigs and tours all around the European countries even before EDM and rave parties became a never-old fad. His music is heard all over the world and can turn a cold moment into a sunny day.

‘**Make Swing Great Again**’ is the latest EDM track that features Wolfgang Lohr as they both create a portal to the La La Land with the vintage touch into the jazz fusion and deep house beats. It also features Melinda Stoika who forces us to shimmy and twist in frenzy. Follow his official website and other social media as well as the online streaming outlets to know about his next release ‘Hello Hurry’ in July.
