- This herbal and non-artificial **Diabliss Sugar** is loaded with nutritions and rich in anti-oxidants. Thus, it helps in lowering Blood Glucose Levels, Improves Lipid Levels & Weight Loss.

Diabetes mellitus, commonly known as diabetes, is a metabolic disease that causes high blood sugar; whereas food plays a major role in controlling the blood sugar level. Apart from all, the most highly consumed food is Sugar; it's better to avoid sugar from your diet, but practically it is not possible. Here it comes a great substitute for regular sugar - [Diabliss diabetic-friendly sugar](#); that has been proven to help reduce blood sugar levels in people with diabetes.

Diabliss product and **diabliss sugar** have been revolutionizing the diabetic world with low GI food ingredients; which helps in controlling the blood sugar level of diabetic patients. This **Diabliss Diabetic friendly sugar** and other **diabliss product** have been prepared with the herbal ingredients that exhibit anti-diabetic properties which include aqueous extracts of turmeric (rhizome), ginger (rhizome), fenugreek (seeds), black pepper (fruit), pomegranate (fruit seeds), cinnamon (bark), and gooseberry (fruit).

Glycemic Index or GI refers to the ranking of food on a scale of 0 to 100 based on how slowly or quickly they would raise blood sugar levels after consumption. It has been proven that **DiaBliss Sugar** has a Glycemic Index (GI) of 44.4, as compared to normal sugar which has a GI of 65 – this makes it a low GI food and which is found to be a great alternative for refined or white sugar.

Studies show Long-term consumption of **Diabliss sugar** maintains normal blood sugar levels and is safe in view of the unaltered lipid and other safety markers like liver and renal function tests thus indicating the safety of DHS. There is a beneficial effect on the average blood sugar levels although a similar study with a larger population for longer duration is required to confirm the efficacy.

"**DiaBliss** pure cane herbal sugar is a combination of (1%) herbal extract with (99%) pure cane sugar. It fits into your wellness conscious lifestyle perfectly with its low GI (glycemic index) of less than 50. **DiaBliss sugar** is thermally stable and does not give you any bitter aftertaste" says **diabliss** low GI food company.

With 10 years of successful research, **Diabliss** Low Index Glycemic food company has discovered the World's 1st Low GI **diabetic-friendly sugar** and other **diabliss products** - **Diabliss** Masala Tea/Ginger Tea/Lemon Tea, **Diabliss** Snacks, **Diabliss** Flour/Atta, **Diabliss** Jam, and **Diabliss** Cookies; that helps in controlling blood sugar level. **Diabliss** owned 100k hearts of consumers in 4 continents by delivering **diabetic-friendly sugar**; that not only proven to control blood sugar but also loaded with anti-oxidants.
