

Get to know Nephrologist Dr. Hassan Ali, who serves patients in Miami, Florida.

Hassan Ali, MD, FACP , Chief of Nephrology and Hypertension at Mercy Hospital, Miami and Medical Director of 2 Davita Dialysis Units.

New York City, Jun 4, 2020 ([IssueWire.com](https://www.issuewire.com)) - Dr. Ali is a practicing nephrologist affiliated with Mercy Hospital, a 488-bed acute care U.S. hospital located in Coconut Grove, Miami, Florida. Established in 1950, it is Miami-Dade County's only Catholic hospital. He is the Chief of Nephrology and Hypertension at Mercy Hospital, Miami, and a Medical Director of 2 Davita dialysis units. Dr. Ali manages a wide spectrum of kidney disease including kidney stones, dialysis, ICU nephrology, vasculitis, kidney transplant follow-ups, and electrolyte disorders.

Recognized as a Fellow of the American College of Physicians (FACP), the doctor is also affiliated with several hospitals and medical centers in the local area, including Baptist Hospital of Miami, Doctors Hospital, University of Miami Hospital, Coral Gables Hospital, Sister Emmanuel Hospital, and Jackson Memorial Hospital.

His acclaimed career in medicine began after he earned his medical degree from the Faculty of Medical Sciences of The University of The West Indies in Jamaica in 1978. Upon relocating to the United States, he completed his residency and fellowship in nephrology at Jackson Memorial Hospital in Miami.

With an unwavering commitment to his profession, Dr. Ali is board-certified in nephrology by the American Board of Internal Medicine, which is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Among his numerous accolades, he is the recipient of the On-Time Doctor Award (2016, 2017, 2018), Patients' Choice Award (2013, 2016, 2017, 2018), and Top 10 Doctor - City (2014).

Nephrology is a specialty of medicine and pediatrics that concerns itself with the kidneys. It is the study of normal kidney function and kidney disease, the preservation of kidney health, and the treatment of kidney disease, from diet and medication to renal replacement therapy. Nephrologists have advanced training in treating kidney disease. They diagnose and treat kidney failure, as well as help patients by prescribing medications, offering special diet advice, and coordinating dialysis care when the time comes.
