

Gophr Releases Local Shopping App on Android and Apple

SWLA's Solution to Shopping without Leaving the House

SHOP LOCAL

Scroll through local stores on your phone.

Lake Charles, Jun 10, 2020 ([IssueWire.com](https://www.issuewire.com)) - Gophr App announced Gophr: Local Stores Delivered, which is their new local retail delivery app. Gophr is a marketplace app that offers a new way for SWLA residents to shop locally without stepping foot in the store.

Gophr gives the power back to the consumer to support their local community with all the convenience of ordering online. Download Gophr to browse local stores, add items from multiple locations to your

cart, checkout, and get your items delivered the same-day.

“I’d use it as my shopping wizard,” says David Soileau, Chief Operating Officer at Gophr App. “if I wasn’t sure Lake Charles had an item I would just type in what I’m looking for to see if it’s available locally.”

Features and benefits of Gophr include:

- Shop from local stores
- Same-day Delivery
- Multi-store orders
- Secure Checkout
- Professional Drivers

Gophr empowers local stores to compete with online shopping and large chains by providing them with the marketplace for customers to find their store, as well as a dashboard to receive/input customer orders and inventory.

Local Stores featured on the app include:

- Mimosa
- Mad Military
- Greengate Garden Center
- Niche Creative Studio
- And many more, with more being added weekly

Gophr is available to download on Android and IOS devices today. For more information visit www.gophrapp.com.

Gophr is currently accepting investment from accredited investors, for more information please visit <https://www.gophrapp.com/investors.html>

About Gophr:

A new startup in the last mile delivery space founded in 2019 and based in Lake Charles, Louisiana. Gophr provides an affordable and flexible e-commerce platform local merchants can sign up for to connect with their community. From everyday retail items to industrial equipment – Gophr delivers local solutions.
