

Help us start Better Officer Bureau like BBB

This will save lives and may stop the riots

Portland, Jun 2, 2020 (IssueWire.com) - Help us start a private 3rd party reporting service similar to the BBB where we promote nationwide a private 3rd party reporting system on any specific officer that seems to be getting a high number of complaints by letting the public know just like the BBB they can call in a good, bad, or terrible report.

This service would show the public the track record of police officers nationwide and their public service rating. If any officer receives over 10 terrible reports in a 1 year period the 10 would be alerted by one of our attorneys to file an action to gather all 10 together to tell their stories to a judge.

This could remove the bad apples and keep the officers on their toes to keep their job by protecting and serving the public in the correct manner.

Enter "**Better Officer Bureau**" to support us on gofundme.com

This could stop the unrest and save lives in cities nationwide and save millions in property damage.
