

IDON Token Holders Will be Able to Purchase GIA Certified Diamonds on the Idoneus Platform

Zug, Jun 12, 2020 ([Issuewire.com](https://www.issuewire.com)) - **Idoneus**, which is building the **New Economy for Luxury Assets**, announced that it has formalized a joint venture with significant diamond mining and trading operation which produces and/or trades nearly 200,000 carats of cut and polished GIA certified diamonds each year. The company will make available \$20MM in diamonds to the Idoneus Portfolio initially and will add more inventory as demand scales. Registered IDON Token Holders can purchase these diamonds at a preferred discount below typical market value.

“Over the next several weeks, we will begin the onboarding process to make thousands of carats of fine diamonds available for sale on the Idoneus Portfolio.” Says [Tim O’Leary](#), Vice President of Portfolio Development. “This is an incredible feat for Idoneus; to our knowledge, no other cryptocurrency company has been able to create this type of value/utility structure for its token holders. No doubt, this will have a very positive impact on the entire Idoneus Economy.” Added Mr. O’Leary.

Each diamond will have the following characteristics: cut: Round Brilliant, Excellent / Excellent; clarity: a range of VVS1 and VVS2; color: colorless D, E, and F and near-colorless G and H. No fluorescents; with a selection of diamonds ranging from 1 - 10 carats in weight. Concierge service will be provided for those individuals seeking to purchase diamonds that are of specialized cut or are in excess of 10 carats in weight.

Each diamond will be accompanied by a GIA Certificate (which confirms the quality and unique identifying features of each diamond) & Kimberley Process Certificate (which certifies the diamond is conflict-free) and will have a high-resolution image of the diamond, viewable on the [Portfolio website](#).

The price/value of the diamonds will be based on current New York Rapaport market values.

Pricing Discounts

There will be a Significant Pricing Discount for all parties who purchase diamonds on the Idoneus Platform with IDON as the primary method of payment.

"We're excited to bring this tremendous value to the Idoneus Digital Economy. We are unaware of another cryptocurrency that provides this type of tangible value to the luxury asset space and cryptocurrency community. This is just one of many partnerships that we look forward to bringing to all holders of IDON so they can realize tangible benefits with our digital token." Says Mr. O'Leary.

Not Just Diamonds

Idoneus is currently in the process of onboarding billions of dollars in assets onto the Idoneus Portfolio, with assets, goods, and services being offered for purchase, rent, or to otherwise experience, to include real estate being represented in more than 30 countries globally. These are items which are owned either corporately or are being offered through our strategic partners. Idoneus is also in communication to joint venture with owners of luxury automobile companies, private aircraft companies, yacht charter companies, fine jewelry companies, etc.

The company has even recently acquired an original artwork by Pablo Picasso using IDON as a method of payment (link below).

IDON Tokens can be purchased on the European crypto exchange, P2PB2B:
