

Kulture Free-Dem Drops a Brand-New album 'Little Ricky' with Throwback Style Hip-hop Compositions

The new doyen in the hip hop industry, Kulture Free-Dem released a full-length album 'Little Ricky' that carries the small traces of hands-on musical experiments.

Staten Island, Dec 31, 1969 ([Issuewire.com](http://www.Issuewire.com)) - With the dynamic flow of riled rap rants, the prevalent rap-monster **Kulture Free-Dem** throws his nitty-gritty stories of surviving the colossal fame in the form of a long album '**Little Ricky**'. It is deemed as the metamorphosis of a young star into the full-fledged hip hop mogul within a span of few years. The specialty of this collection of songs is that it has reminiscent power that connects the dots of pasts and presents with the help of his lyrical marvel. '**Dat New Street Talk**', being the first song of the album produced by **KAELA ENTERTAINMENT**, leads us to the road of street life hustling in superfly freestyle.

Kulture Free-Dem was born to live a life in front of the mic. He was driven to learn melodies and wordplays from a very young age that eventually made him a well-known personality at the age of only 14, by winning a Rap Contest at a St. Gabes event & concert. He was only a freshman when he released his first sold-out record **Uhuru Movement** in 2006.

‘**Little Ricky**’ is filled with new vibes that are captured beautifully in the hiphop track ‘**Then He 2020**’. The echoed crooning in the sweetest vocals leads us to an unforgettable musical journey in the song ‘**Sic Mfkr**’. Its notes are sweet and the style of rap is ambiguous to portray the dichotomy of the society under a silky concealer. ‘**Brand New**’ is a throwback song that indicates his new life. Fans can follow him on his official website, [Facebook](#), [Instagram](#), [Twitter](#), and [Youtube](#).
