

Mario J. Sebastianelli, MD, FACP, a Nephrologist with Geisinger Community Medical Center

Get to know Nephrologist Dr. Mario J. Sebastianelli, who serves patients in Scranton, Pennsylvania.

New York City, Jun 27, 2020 ([IssueWire.com](https://www.issuewire.com)) - Fluent in both English and Italian, Dr. Sebastianelli is who is affiliated with Geisinger Community Medical Center in Scranton, Pennsylvania.

Geisinger Community Medical Center has been a part of the Geisinger family since 2012. It provides high-quality, coordinated, patient-centered care for residents throughout Lackawanna County and northeastern Pennsylvania. It has the only Level II trauma center and electronic intensive care unit in Lackawanna County, providing care for the most seriously ill and injured patients.

Back in 1962, Dr. Sebastianelli earned his medical degree from Sidney Kimmel Medical College of Thomas Jefferson University. He was elected to Alpha Omega Alpha Medical Honor Society as a Junior in Medical School. He served a general rotating internship and internal medicine residency at Philadelphia General Hospital with two years of service in the Navy Medical Corps separating the two medical training periods (7/62-6/67). He was trained in nephrology with a fellowship at the University of New Mexico and the second year at the University of Miami (7/67-6/69). He took an academic position at Hahnemann Medical College prior to entering private practice, during fellowship he co-authored three medical papers on research findings, published in national medical journals.

A Fellow of the American College of Physicians (FACP), the doctor is board-certified in internal medicine and nephrology by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Nephrology is a specialty of medicine and pediatrics that concerns itself with the kidneys. It is the study of normal kidney function and kidney disease, the preservation of kidney health, and the treatment of kidney disease, from diet and medication to renal replacement therapy. Nephrologists have advanced training in treating kidney disease. They diagnose and treat kidney failure, as well as help patients by prescribing medications, offering special diet advice, and coordinating dialysis care end-stage renal failure or an internal acute kidney injury may develop.
