24 HOUR
EMERGENCY SERVICE

Ranchi, Jun 19, 2020 (Issuewire.com) - The Medilift Ground Ambulance Services in Ranchi and Bokaro consists of a small or medium-sized van that could accommodate all the facilities of a medical setup right from BLS or basic life support to the advanced stages of medicine or the ALS advanced life support going on further it also carries the services of an ICU setup that comes under the ACLS advanced critical life support to the patient while in transfer from one remote place in Ranchi to a renowned hospital such as Santevita Hospital, Medica Super Specialty Hospital, Apollo group of hospitals, etc. it also carries the patient from one village in and around Ranchi within a range of 500km or so on maximum to the heart of the capital city of Ranchi during emergency conditions or epidemics happening around the village scenario which is common these days in the rural-urban setting.

Our ground ambulance services are really renowned with full setup of an ICU that has the capacity to accommodate experienced staff, well-qualified nurses that are trained at par with a super-specialist such as cardiologists, neurologists, nephrologists, etc. and depending on the disease and condition of

the patient we ask for the prescription first which has been given by the visiting doctor at first instance only, thus leading to the next step where we transport the doctor alongside to the patient when required by them on the call of duty. Medilift [Ventilator Ambulance Service in Ranchi](#) is a boon to the life of the normal citizen as it is affordable to the maximum citizens alike be it a bureaucrat or a common man with fewer needs all are the same here with our services.

So once you book our ground ambulance services be worry-free about the patient and his injury because it is our duty to look after the patient and his little possible things will be taken care of by the dedicated doctors and staff. Paramedical experts are there to serve the cause as well they help in many activities such as BLS or the basic life support where everything from a bandage to the critical care of the patient is looked after on with utmost care. We have a great strategy to proclaim the emergency services in Medilift [Ventilator Ambulance Service in Bokaro](#) and thus our aim is to provide support 24*7 to the public all the year round in emergency you can always contact us through mobile call or all other media online as well.
