

Multi Talented actor and musician William C. Ingram on his way to Hollywood

Los Angeles, Jun 29, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Multi-talented actor and musician William C. Ingram has had a hard road on his way to pursuing his dreams. We had a chance to speak with him briefly and he was able to share some of what has happened on his journey with us. "I used to sleep in a FedEx truck after I got put out of where I was living." Ingram was working at FedEx as a delivery driver at one point in his life. He had recently got into a disagreement with a close friend and was asked to leave. Instead of asking someone else to stay at their place, he decided to tough it out and stand on his own. "I would go to a local Planet Fitness and take showers after work every day. I knew that the situation I was in would only make me stronger as a person." Today Ingram has worked with several award-winning actors, directors, and musicians from films that featured on Netflix all the way to musicians like Bootsy Collins! You may follow Ingram on his Instagram for new films and music he will be working on. [@theingram](https://www.instagram.com/theingram)
