

## Nesting Days New Improved Men's Baby Carrier - Pre-Order Discount For Father's Day

**San Francisco, Jun 10, 2020 ([Issuewire.com](http://Issuewire.com))** - Father's Day is approaching and [Nesting Days](#) are about to release a new and improved version of their [men's baby carrier](#). The new carriers for dads are expected to be in stock by mid-June and can be delivered by Father's Day. Customers can Pre-order now until June 15th and receive \$10 off of the regular price of \$98.

A few of the unique features of this updated carrier are its criss-cross design with side buckle, a built-in tank top for core support that also allows for skin to skin contact, leg openings that let you reach in and adjust baby's legs or let them extend out, and an improved technical compression/stretch fabric. Some other carriers may look similar, but they are not. Nesting Days does not cut any corners when designing their products and only use the highest quality fabrics with the highest manufacturing standards. They are a bit more expensive than other carriers...but worth it.

Nesting Days are also doing their best to keep up with the growing demand for their [women's newborn carriers](#) during these challenging times. As they sell out of their current batch of [Basic Black](#) and [Polka Dot](#) women's carriers, they are also taking pre-orders as they manufacture more as quickly as possible. The estimated re-stock date is also mid-June. Orders will be processed and shipped in the order received once the carrier is in stock.
