

PCEX Member- Crypto Trading Platform Launched in India!

PCEX Member, a cryptocurrency Trading Platform is open for trading for the Indian market.

New Delhi, Jun 16, 2020 (IssueWire.com) - Today, PCEX Member has announced its launch in the Indian Cryptocurrency Market. The Trading Platform is launched in partnership with a leading Cryptocurrency Exchange, PCEX as a Trading member under its B2B Model. Now you can Buy, Sell, and Trade Cryptocurrency in India using INR on PCEX Member.

“The scenario in the Indian market has changed drastically over the past few months since

the landmark judgment by the apex court of India. The verdict to curb the crypto ban on banks and the recent confirmation by RBI for the same has bought a fresh ray of hope for cryptocurrency exchanges to capture the Indian market.”

- Sandeep Phoghat, CEO & Founder, PCEX

“ India is on the path of digital transformation with the government focusing on creating a Digital India. And what better way to do so than using digital currencies for day to day transactions.”

- Chavi Ahuja, Founder & CEO, PCEX Member

With the declining Stock Market, Cryptocurrency offers a better alternative as an investment option. Through PCEX Member, a new opportunity for investment is open for the Indian Individuals, Traders, and Investors. Now, traders, investors, and crypto enthusiasts can buy, sell, trade, or hold cryptocurrencies at PCEX Member to gain higher profits than the stock market.

Some features offered by PCEX Member Trading Platform:

Lowest Transaction Fee- The platform charges a single transaction fee of 0.2% on Spot Trading and 0.02% on Futures Trading.

High Liquidity- Affiliation with a global exchange like PCEX affords PCEX Member with a high number of transactions resulting in higher liquidity.

No Maker & No Taker Fee- PCEX Member does not have any Maker or Taker fees on any transaction in any crypto market for the first 25K new users.

Seamless Interface- The user-friendly interface of the platform and its Mobile Application allows for smooth transactions.

5-layer Security- Apart from blockchain security, the trading platform has five additional security checks that leave one in a billion chance of a breach.

Multiple Trading Pairs- PCEX Member has an array of cryptocurrencies, stablecoins, and fiat currencies to offer its users multiple pairings for trading.

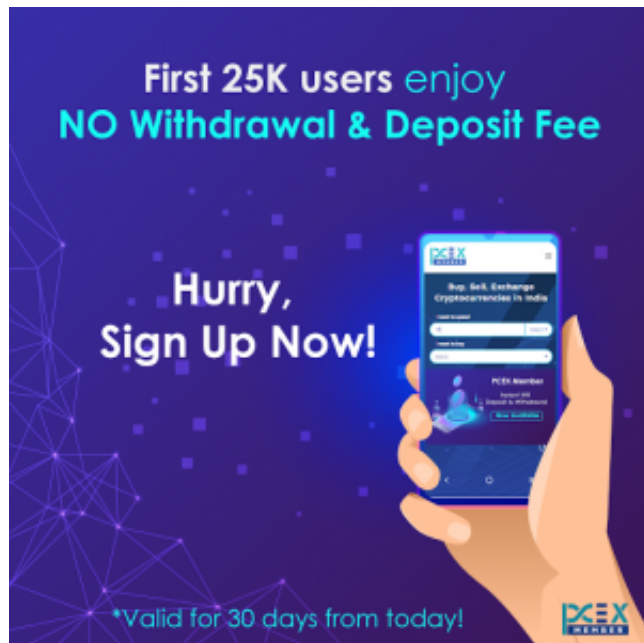

Global Investment Scope- Unlike Stocks Market that limits the scope of investment to nationally registered companies, through PCEX Member, users can invest in a global market that is open for one and all.

From today, users can buy, sell, trade, or invest in cryptocurrencies and earn 100 X higher returns on investment. In order to start your crypto journey, just visit www.pcexmember.in.

If you are looking for a business opportunity in the Cryptosphere, you can partner with PCEX Member as a Franchise or Freelancer and earn up to 80% in revenue share. To know more, visit www.pcexmember.in/partner-with-us
