

Priority Express Courier, a Capstone Logistics Company is the latest organization to become ISCPO Carrier Certified

ISCPO Carrier Certified Press Release

Dallas, Jun 22, 2020 (IssueWire.com) - Regional Transportation Carrier Awarded Ground-Breaking Security Certification

The International Supply Chain Protection Organization (ISCPO) adds Priority Express Courier, A Capstone Logistics Company to its roster of certified final-mile carriers.

Dallas, TX (June 22, 2020) – FOR IMMEDIATE RELEASE – The International Supply Chain Protection Organization (ISCPO) is pleased to announce that Priority Express Courier, A Capstone Logistics Company has been officially awarded the *ISCPO Carrier Certified* designation, as part of the ISCPO's Carrier Security Audit & Certification program.

Priority Express Courier has achieved full compliance with ISCPO Carrier Security Requirements, which includes a comprehensive due diligence process and analysis of various security standards necessary

to ensure the integrity of goods flowing through the carriers and their clients' extended supply chain.

"We will continue to see the demands of eCommerce from both consumers and businesses. There is an inherent increase in complexity and risk within transportation," says Byron Smith CFI LPC, Chairman of the ISCPO. "The ISCPO *Carrier Security Audit & Certification* program helps recognizes those that execute above and beyond in universal controls and standards, carrier accountability, and transparency within the marketplace among the growing third-party regional carriers."

Carriers awarded the *ISCPO Carrier Certified* designation demonstrate their commitment to maintaining elevated levels of security, both internally and externally with their clients. By adhering to one framework of standards set by the ISCPO, time and resources are saved on all fronts. Clients have peace-of-mind that their goods are secure while in transit. Carriers save time and expense by not having to toggle between different client security programs. And, the end customer gets their package on time.

"Priority Express is proud to become a certified ISCPO Security Carrier," says James Murphy, Compliance Manager/TSA Security Coordinator at Priority Express. "Controlling loss and damage is a critical component of a successful supply chain. We are building a culture that is security-focused at every level of our organization and we are prepared to protect our partners' assets. This certification ensures that we deliver the security and peace of mind that every one of our partners demands and deserves."

Wes Bank LPC, ISCPO Vice Chairman adds, "The ISCPO congratulates the Priority Express Team on this terrific achievement. Their 26 years in the logistics service industry has laid the foundation to support the industry's best practices necessary in minimizing loss incidents and service failures. Let's face it, 3PLs are a cost-effective way for businesses to move goods through their extended supply chain. Therefore, when a service provider such as Priority Express chooses to apply resources to demonstrate competency through certification, those efforts must be acknowledged and applauded."
