

Shayna L. Crawford, RN, a Registered Nurse with Tallahassee Memorial HealthCare

Get to know Registered Nurse Shayna L. Crawford, who serves patients in Tallahassee, Florida.

New York City, Jun 10, 2020 ([IssueWire.com](https://www.issuewire.com)) - Shayna is a registered nurse who is affiliated with Tallahassee Memorial HealthCare in Florida. She stays up-to-date with new tools and technology to help provide the best care to patients and families, and the best support to doctors and other healthcare professionals.

Founded in 1948, Tallahassee Memorial HealthCare is a private, not-for-profit community healthcare system committed to transforming care, advancing health, and improving lives with an ultimate vision to elevate the standards of healthcare practice, quality, and innovation in the region. Serving a 17-county region in North Florida and South Georgia, the healthcare system is comprised of a 772-bed acute care hospital, a psychiatric hospital, multiple specialty care centers, three residency programs, 32 affiliated physician practices, and partnerships with Doctors' Memorial Hospital, Florida State University College of Medicine, University of Florida Health, Weems Memorial Hospital, and Wolfson Children's Hospital.

In 2016, Shayna earned her Associate's Degree in Nursing (ADN). She is currently enrolled at Chamberlain University, working towards her Bachelor of Science in Nursing (BSN) degree.

To advance her professional efforts, she holds certifications in Advanced Cardiac Life Support (ACLS), Basic Life Support (BLS - not intended for postnominal use), and Pediatric Advanced Life Support (PALS). She also serves as a Trauma Nursing Core Course Instructor (TNCC-I -not intended for postnominal use).

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.

In honor of her clinical expertise, Shayna attributes her success to having always wanted to be a nurse and to set a good example for her child and be the best mom she can be.
