

The Founder of Stickman, Ajay Unni will be Speaking at the Identity and Access Management Webinar

Sydney, Jun 14, 2020 ([Issuewire.com](https://www.issuewire.com)) - *Ajay Unni, the founder and CEO of Stickman, will be speaking on 'Do you know who has access to what in your organisation?' at the Identity and Access Management Webinar. A webinar is a 1-hour event that will be led by cybersecurity and identity & access management leader with over three decades of experience. It will be held on June 24, 2020, 12:00 pm AEST (Sydney < Australia).*

The Identity and Access Management Webinar is an exclusive live event for CIO, CISO, CPO and IT Managers. Its key speakers include Ajay Unni (Founder, CEO – Stickman) and Binod Singh (Founder, CEO – Ilantus - <https://www.ilantus.com/>). They will be speaking on key insights on IAM best practices, authentication using multifactor and decentralised identity, identity governance and user management, multi-tenant, hybrid and multi-cloud IAM.

In a recent survey, 82% of IT professionals said their business was exposed to risk as an outcome of poor identity and access management practices, including loss of employee data (36%), loss of client data (33%), and financial losses (26%). This webinar will help IT teams take control of their business security to identify and understand the major identity and access management challenges that IT teams face today, and to start addressing them. This webinar is presented by Stickman and Ilantus.
