The SBCM Platform is holding an ICO for SB Coin on June 15

London, Jun 6, 2020 ([Issuewire.com](https://www.issuewire.com)) - The SBCM Platform is holding an ICO for SB Coin on June 15

The SBMC is the world's most advanced crypto exchange. It will offer support for multiple crypto exchanges. On the exchange, professional traders and newbies will have access to the tradingview tool that allows them to make the most informed trading decisions.

High Liquidity Book

On SBMC, access to high liquidity will be a priority. The platform has several strategies in place to ensure that their order book is large enough to support high liquidity trading. Consequently, traders can take advantage of every opportunity possible to make a profit.

Fast Trading Engine

Another advantage that SBMC traders get is the fast trading engine. The platform is designed to process up to 100,000 transactions per second. Consequently, traders do not have to worry about the rate of order execution. You can trade your favorite asset with ease in the least amount of time possible. With fast order execution, it ensures that you can benefit from slight price changes, which is important in the volatile world of crypto trading.

A Large Ecosystem

The SBCM ecosystem is quite large. It comprises merchants, traders, developers, and organizations. The large ecosystem helps to provide utility for the SB Coin. Consequently, it ensures value creation for the SB Coin via real-world use cases.

The SB Coin Blockchain

The SB Coin is going to be the global payment crypto coin for the SBCM ecosystem. You can buy or trade the SB Coin for a profit. Besides that, there is an annual profit offered via the POS system within the SBCM ecosystem.

The SBCM Merchants

Over 2000 merchants around the world have signed up for the SBCM ecosystem. They all accept the SB Coin as a means of payment. Whether you want to pay for a taxi, your hotel room, e-commerce shopping, you can do so with the convenience of the SB Coin.

The SBCM Governance Structure

The governance structure comprises of top organizations and government bodies. All of them have voting rights via the SB Coin. They are all committed to the development of the ecosystem and their voting decisions reflect this. Besides that, they help to guarantee the security of the platform.

Mobile App and Multi-Crypto Wallet

The SBCM platform can be accessed as a mobile wallet, which is supported on Android and iOS devices. The app has all the features accessible via the SBCM desktop platform. That means you can buy and sell crypto from the convenience of your phone.

Within the platform on mobile and desktop versions of the platform, a crypto wallet supports multiple cryptocurrencies is offered.

The Details of the SB Coin ICO

The SBCM ecosystem will have a total supply of 3 billion coins. For the ICO, 1.5 billion coins, which is

50% of all coins will be sold during the ICO. At the ICO, each SB Coin will be sold for \$1.

The date of the ICO is June 15, 2020.

To take part in the ICO, visit the SBCM platform, and sign up for the ICO. There will be no limits placed on purchase.
