

Acqra chosen as Most Innovative Fintech Startup in Asia Pacific

Hong Kong, Jul 8, 2020 ([Issuewire.com](https://www.issuewire.com)) - APAC Business Headline has selected Acqra to be the winner of APAC's Most Innovative Fintech Startup to watch 2020, Acqra is a payment company based in Hong Kong offering different payment solutions. Their VP of Operation Jessica was interviewed in the cover story.

Acqra's eKYC technology has enabled them to approve merchants quickly with various data intelligence. It is especially welcomed by SME online merchants who are often neglected by traditional banks which usually lack proper technology to verify and monitor merchants with little or even no prior processing history. Moreover, with an extensive merchant monitoring capability, they can respond quickly to the potential risks before reaching a crisis.

Acqra also provides a chargeback and fraud management system and connects merchants with multiple payment channels in a single interface. All these solutions help merchant mitigate their business risks and simplify their shopping cart integration efforts with a high transaction success rate.

In the next stage, Acqra is eyeing for virtual banking and open banking technologies. They will also adopt blockchain and artificial intelligence in their product roadmap.
