

Anmol Singh: How He Pursues His Passion by Helping Others Flourish

New York City, Jul 16, 2020 ([Issuewire.com](https://www.issuewire.com)) - When it comes to successful people and their journeys to the top, two things often come into play—luck and hard work. The former is known for being a product of uncontrollable external factors, while the latter is recognized as something that emanates from within.

Although luck and hard work may seem to come from opposite ends of the spectrum, in truth, they belong to the same wavelength. We could say that good luck is just the sum of great efforts. The harder one works, the luckier they become.

This philosophy is what Anmol Singh lives by and wishes to teach in matters of trading and investing, which can be a tricky field to navigate. But with his skills and knowledge, he can masterfully show what real trading is all about.

Anmol Singh is a prominent and highly paid consultant in the trading and investing industry. His success

has its roots in his college years when he discovered a pattern that gave him significant profit. This discovery paved the way for major opportunities that would change his life.

Anmol launched Live Traders in 2015 as a way to teach others what he knows. Through Live Traders, he gives traders the education they need to understand the industry. This teaches them the expertise needed to make quick, logical decisions based on accurate data. Live Traders became a platform for like-minded traders to fuel their pursuit of greatness.

Live Traders sets itself apart from the usual trading consultants by creating a personalized atmosphere for its clients. Live Traders experts can guarantee the accessibility of tracking spreadsheets and trading psychology recordings with the company's advanced trading technology. One-on-one training allows students to interact with the expert individually so that each can learn and understand concepts at their own pace. This way, the trading expert can customize the lesson for the individual student.

Since the trading industry is such a stressful field with high stakes, many traders often have to deal with psychological and behavioral issues. Anmol Singh has been helping thousands of traders all over the world deal with their problems concerning trading in healthy and reasonable ways. His research in this area has made him known as the leading expert in the trading psychology space.

Anmol Singh has successfully coached and trained over a thousand traders and investors. Many of his students have gone on to run their own hedge funds after rigorous training and study at Live Traders.

Aside from being a coach and trader in stocks and forex, Anmol is also involved in franchise stores in the automotive sector and other entrepreneurial ventures. He also maintains a diversified real estate portfolio.

Anmol is the author of the book [*Prepping for Success: 10 Keys for Making It in Life*](#), where he talks about how to achieve success in different aspects of life. The book is a general guide to life, not a trading manual. In it, he dives deeply into the ten essential things people need to succeed in life.

For Anmol, success is a matter of momentum, and just a little of it can make it easier for one to keep going.
