

Be ready for the next big thing in the art world! Global Art Index – “Let’s Find Art”

Bath, Aug 3, 2020 ([IssueWire.com](https://www.issuewire.com)) - After a long wait and endurance of hard work over 8 months, Global Art Index will be finally launching its website during the mid of August 2020.

Global Art Index will be beginning its journey with art by covering more than 8 million artworks by over 500,000 artists and would be multiplying the data within the next 6 months. Our progressive enterprise has a vision to have the largest data of all top art auctions ever collected or managed by any art company.

Under its umbrella, Global Art Index will be creating different sub-categories for art news, art editorials, art write ups, biographies of artists, mini websites (microsites) for artists, e-magazines, listing of popular artists and art works of different genres and many more upscaling features for promoting art. The website will also attribute art events and fairs of leading art galleries, art houses and museums ensuring important market alerts and enlisting price data base.

Global Art Index will empower their extension by joining partnership with their subscribers, implanting favorable plans and access to top quality data base.

Global Art Index has a dedicated team of tech experts, data scientists, big data analysts and art experts working tirelessly round-the-clock in different countries, collecting, analyzing and upgrading data within the system.

During the first month from launch, Global Art Index will be offering a 50% discount on all subscriptions.

Enjoy the journey.
