Computer Science Engineering: A Path Towards Change And Innovation

Private Engineering Colleges in Faridabad B.Tech colleges in Delhi NCR

Faridabad, Jul 18, 2020 (Issuewire.com**)** - **Private Engineering Colleges in Faridabad**

Computer Science engineering initially dealt with the theoretical underpinning, computation, and programming of numbers and analytical calculations. This limited understanding of the subject failed to be principled into application-based learning methodologies and was just restricted to software

development. The increase in research work along with technological acquaintance has changed the outlook towards the computer systems and their capabilities. Echelon Institute of Technology, is one of the best colleges in Faridabad has always believed in providing updated and quality education to its students.

CURRENT SCENARIO

EIT has been ranked as the best college for CSE IT engineering in Delhi as it is responsible for panning out a multidisciplinary aspect of the subject by creating appropriate training grounds and other innovative approaches. This has been synonymous with the global trends where the CS & IT sector has changed the economic position of countries like the USA, UK, and China. IN the last few years, it has been the sector that has generated the maximum revenue and employability (from highly skilled to semi-skilled employees)

ELIGIBILITY CRITERIA

The eligibility criteria to get admission in CSE & IT courses in EIT are:

1) An aspiring student must have passed the grade XII board exams with exact or more than 50% marks as an aggregate with the combination of Physics, Chemistry, and Maths as the core subjects.

2) The student should have a score of exact or more than 60% marks in either Computer Science or IT in his/ her board exams.

SCOPE

Globalization has led to the emergence of a wide variety of jobs for computer science engineers ranging from industries such as aerospace, healthcare, IT sector to the Artificial Intelligence department. The rise of better opportunities in these domains has made it possible to capture career paths with stable job growth, higher salary packages, and better exposure. The exponential growth and increased accessibility in the jobs of the IT sector have resulted in the creation of around 3.7 jobs in domains such as data science, robotics engineering, and cybersecurity, blockchain developing, AI experts, and machine learning engineering creating large scale employability. Understanding the picture of the global market, the Government of India has also increased the budget allocation to Rs. 5000 crore among other schemes. These records incline towards the immense scope and 'always in demand' nature of the job.

MAJOR RECRUITERS

The top colleges in Faridabad such as EIT have an unmatchable placement potential built by our extensive alumni network and trainers responsible for developing soft skills such as patience, cross-culture adaptability, critical thinking, and teamwork. The top-notch companies such as Mahindra, IBM, Microsoft, TCS, Deloitte, Google, and Capgemini approach the students from our college during their yearly campus recruitment drives. These benchmarks have been achieved because of the sheer hard work that our management puts in organizing industrial training programs and visits.

SCHOLARSHIPS

EIT is among the very few AICTE approved engineering colleges in Haryana because of the efforts that have been put in to make it an inclusive space for all. The college management functions to provide

economic benefits like scholarships and other financial aid policies to the students who are facing different socio-economic circumstances.
