

Don't Worry Tik-tokers, Use B-Byte as alternative of tik-tok

b-byte is direct replacement of TikTok which is not preferred by world at large in general, given present scenario.

UNINSTALL TIK-TOK
DOWNLOAD INDIAN APP

 **B-byte**  GET IT ON
Google Play

Noida, Jul 6, 2020 (Issuewire.com) - Don't Worry Tik-tokers

Finally, B-BYTE team is up with the alternate of tik-tok, B-BYTE named Indian video creation app which is officially launched on Play Store and will be launching on App Store super soon. The team is working really hard to add more and more updates and features. This app is up with a lot of new opportunities for

tik-toker's to be known as B-BYTER'S. You can show your talent on this platform and it is their responsibility to showcase it to a wide range of audience. Day-to-day the app is getting updated and more features are being added. If your videos trend all over India, then you can also get a blue verified badge on your profile. Seems to be interesting, yes, it is. So, hurry up and download the app from the play store.

This is a direct replacement of TikTok which is not preferred by the world at large in general, given present scenario.

Let loose your creativity – Be it mimicry, singing, playing an instrument, stand-up comedy or anything that comes to your mind - and show the world your ability and be a media star. Do share B-byte with all your friends Your one action will be a step forward to ease out the influence of Tiktok Do post your review and comments which will be greatly appreciated Hope to catch up soon again
