

Drippin Junkies: Most Innovative E Liquid Manufacturer in the UK

Launch of new products brings new exciting flavours to the vaping industry

Hertfordshire, Jul 30, 2020 ([Issuewire.com](https://www.issuewire.com)) - After a successful launch four years ago, innovative British retailer and manufacturer of e liquids and vaping products, Drippin Junkies, keeps surprising. The company has just announced the release of four brand new exclusive products.

The expansion adds 4 more e liquids to an ever-evolving range. The **ZUMA** banana nut bread, the **TOZI**

cool aniseed with berries, **ATZI** with sour apple and citrus plus **BACBAC** which is a delicious combination of caramel and ry4 tobacco.

These new flavours are in addition to the already diverse and unique product range from Drippin Junkies. The company is quickly gaining ground in the UK market with sales now also spreading in Europe, North America and Asia.

Quality Assurance

All Drippin Junkies products are developed in-house and under strict quality control conditions. Ingredients are carefully produced, selected and mixed within approved ISO-grade laboratories. Drippin Junkies e liquids conform to TPD/MHRA guidelines and uphold stringent standards that are not commonly found amongst other e-liquid manufacturers.

To ensure the perfect vaping experience the sanitised bottles are sourced from the leading manufacturer in the US, with anti-drip nibs, providing a superior and safer product when compared to market standards.

About Drippin Junkies

The company started in 2016 as a family run business and with a clear mission to help consumers switch from harmful smoking to vaping. By using only the best quality ingredients to create the most appealing e liquids and adding unique testing and quality assurance process, Drippin Junkies have managed to become an internationally recognised brand and one of the most trusted suppliers of e liquids in Europe.
