

Edmond M. Daniells, DC, a Chiropractor with Interventional Spine & Sports Medicine, PC

Get to know Chiropractor Dr. Edmond M. Daniells, who serves patients throughout the State of Connecticut.

New York City, Jul 3, 2020 ([IssueWire.com](https://www.issuewire.com)) - With interests in sports injuries and human performance, Dr. Daniells is dedicated to integrating chiropractic care with medical services to most effectively reach successful treatment outcomes and patient satisfaction. He is in practice with Interventional Spine & Sports Medicine, PC with offices throughout the state of Connecticut, including Middlebury, Prospect, Farmington, and Hamden.

Interventional Spine & Sports Medicine, PC is devoted to the non-operative management of various orthopedic conditions, including neck and back pain, sports injuries, and osteoarthritis in the Waterbury, Connecticut area. After a comprehensive evaluation, patients will receive a treatment plan consisting of activity modification, therapeutic exercise, medications and/or injection procedures. Alternative treatments are sometimes recommended when appropriate.

Specializing in the evaluation and conservative management of spine-related disorders, Dr. Daniells' approach to patients with such disorders focuses on reducing pain, improving function, and educating patients to care for themselves. This is done in order to maximize a quick recovery and to decrease the likelihood of recurrence.

As for the doctor's academic career, he completed his Bachelor of Science (BS) degree within the Physical Education and Human Performance Department at Central Connecticut State University. He then went on to obtain his Doctor of Chiropractic (DC) degree from the University of Bridgeport College of Chiropractic. He was selected for additional training as part of the VA Hospital Chiropractic Clerkship Programs at Newington VA Clinic and West Haven VA Medical Center.

With a background in golf-specific performance and functional assessments, Dr. Daniells is also certified through the Titleist Performance Institute. This has led to his athletes performing better and staying injury-free.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain and back pain. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself without the use of medication or surgery.
