

EDS Technologies Partners with Synopsys to Deliver Aerospace and Defense Solutions

Bengaluru, Jul 29, 2020 ([Issuewire.com](https://www.issuewire.com)) - EDS Technologies Pvt. Ltd. (EDST), one of the largest Engineering Solutions providers in India, announced its partnership with Synopsys to provide verification and IP solutions to the Indian Manufacturing industry. With this partnership, EDST will provide a larger portfolio of Electronic Design Automation (EDA) verification solutions and IP to the Aerospace & Defense (A&D) industry and research establishments in the region.

“A&D businesses and organizations are poised for a big change in India, and globally with the recent developments. As more countries look to develop and advance their competencies in hardware and software, we feel this is the right time to partner with a leader in EDA and IP to enable organizations to bring in this transformation. This partnership allows us to expand beyond PLM and Visual Simulation solutions with Synopsys EDA tools and DesignWare® IP to broaden our offering for the Aerospace & Defense industry in India,” said Mr. S. Senthil, President, EDS Technologies.

“We are pleased to partner with EDS Technologies to provide solutions for IP, verification planning, static and formal verification, simulation, highly-reliable synthesis, and debug to meet DO-254 safety requirements,” said David Lin, Regional VP of Asia Pacific at Synopsys. “Our world-class IP and verification solutions deliver a seamless migration for FPGA to ASIC designs, enabling designers of A&D applications to accelerate time-to-revenue, find and fix bugs earlier and minimize schedule risks.”

About EDS Technologies Pvt. Ltd.

EDS Technologies Pvt. Ltd. (EDST), established in 1995, is one of the largest Engineering Solutions providers in India. EDST partnering with global leaders including Dassault Systemes, Presagis and VT-MAK provide PLM, 3D Visual simulation and e-Learning solutions bringing in the most complete solution for any size and type of industry. EDST's differentiation is its domain expertise, consultative approach and hands-on understanding of customer requirements required to drive successful implementations with world-class training and technical support. With nearly two decades of experience, EDST has the largest customer base in the Indian market with more than 1500 customers from aerospace, automotive and supply chain, industrial machinery, high-tech, and electronics, railways, infrastructure, consumer packaged goods, engineering service providers, defense, research, and academia.
