

Esha IT & LIFARS forge partnership to add incident response and security compliance services to each other's arsenal

East Brunswick, Jul 14, 2020 ([Issuewire.com](https://www.issuewire.com)) - ESHA IT and Lifars are pleased to announce their partnership to expand their services suites to offer the very best in security to their clients. The partnership forges ESHA IT's industry-leading cybersecurity and technology consulting services across Threat, Vulnerability & Governance with LIFARS best in class Emergency Incident Response, Digital Forensics, Ransomware Mitigation, and Cyber Resiliency Services.

The ESHA IT-LIFARS partnership will enable clients to benefit from the full range of security services especially incident response & breach management. This will enable the firms to aid clients in detect and rapidly responding to cyber threats. Thus, ensuring secure operations are maintained at all times with a structure for emergency incident response to contain any situation.

Partnership Thought for Organisations:

"The ESHA IT-Lifars partnership is a powerful combination. ESHA's deep understanding of cybersecurity across threat, vulnerability, governance, and Lifars' expertise in Incident Response & Breach Management will enable both firms to provide the best in class end to end security to their clients," said Premal Parikh, Managing Director of ESHA IT.

"The ESHA-LIFARS partnership truly rounds out our service offerings to our clients. With the full life cycle consulting services ESHA brings, it allows us to deliver our DFIR services and add depth of understanding of how to ensure ongoing cyber resilience and governance to our client's infrastructures," said Steve Lubchansky, Vice President of Sales and Alliances at LIFARS.

About ESHA IT: ESHA IT is a New Jersey based security & technology advisory firm that helps companies of all sizes improve their cybersecurity and technology. Our experts aid clients in reducing their risk to a cyber-attack by identifying risks, vulnerabilities & threats.
