

Mr. ManHee Lee Writes a Letter Regarding Shincheonji Members' Plasma Donation

사랑하는 대구교회 성도님들께

사랑하는 대구 디대교회 성도님들 수고하십니까? 건강하십니까? 저는
총회장 이만희입니다.

대구교회 성도님들께서 코로나19 바이러스 혈장 치료제 개발을 위해 헌
장(피) 공여에 자발적으로 참여하겠다는 의사를 밝혔다는 소식을 듣고
기뻐합니다. 성도님들은 예수님의 피를 받은 자들임을 믿습니다.

우리 교회가 해결할 수 없는 코로나19 감염 확산 방지와 치료를 정부가
맡아 해결해 주신 그 은혜 너무나 감사합니다.

우리 성도들은 하나님의 아들 예수님의 생명의 피를 받았습시다. 그리고
죄에서 해방되었습니다. 우리도 예수님같이 피를 줌으로(혈장 공여로).
코로나19로 고통 받고 있는 세계 만민이 코로나19의 고통에서 해방되게
하자는 뜻으로 마음을 모았음을 압니다.

나는 대구의 많은 성도님들이 자발적으로 헌장 공여 의사를 밝혔다는 말
을 듣고 감동하였습니다. 과연 예수님의 피를 받은 자들입니다. 이것이
이 여 나라 국민으로서, 참된 신약언론으로서 할 일이며, 내 이웃을 내 몸
같이 사랑하라는 예수님의 계명을 지킴(마 22:39), 좋은 일에 마음 모아
뫼 되는 것들을 해주실때 감사드립니다.

우리 다 예수님의 이름으로 코로나19 박멸을 위해 기도합니다(요 14:13-14
참고).

2020. 6. 27.

신천지 총회장 이만희 

To The Beloved Members of Daegu Church

To the beloved members of Daegu Church, you all are working hard. Are you
all well? I am Chairman Lee Man-hee.

I was delighted upon hearing the news of your intent to actively participate in
donating plasma (blood) for the development of the vaccine for the cure of
COVID-19. I believe that you are the ones who received the blood of Jesus.

I am very thankful to the government, which took charge of preventing the
spread of COVID-19 and providing treatment for it. This is not something our
church could resolve.

Our members have received the blood of life of Jesus, the Son of God, and
have been freed from sin. Like Jesus, through our blood (plasma) donation, I
know that you have gathered your hearts in our collective wish to free all the
people of the world from the pains of this disease.

I was touched when I heard that many members of Daegu church expressed
their intent to voluntarily donate plasma. Indeed, you are the disciples who
received the blood of Jesus. This is the work that needs to be done as citizens
of this country and as true believers. It is keeping the command of Jesus of
loving your neighbor as yourself (Mt 22:39), and I am thankful that you have
gathered your hearts for this good work and in making this decision that is like
the light.

Let us all pray in the name of Jesus to exterminate COVID-19 (Refer to
Jn14:13-14).

June 27, 2020

Lee Man-hee
Chairman of Shincheonji

Melbourne, Jul 1, 2020 (Issuewire.com) - Chairman Manhee Lee sends a letter thanking Shincheonji members in Daegu for donating blood plasma. The donation from 4000 church members is considered worth around US\$83 billion and will help accelerate the development of a vaccine of COVID-19. Chairman Lee is thankful to the government for treating their members, whilst also thanking Daegu Church for volunteering with blood plasma donation to repay the government's effort.

Chairman ManHee Lee of Shincheonji Church of Jesus, the Temple of the Tabernacle of the Testimony (Shincheonji), sent a message to thank the Shincheonji members in Daegu who decided to donate their plasma needed in developing COVID-19 (novel coronavirus infection) vaccine.

Shincheonji stated on the 29th June 2020 that Chairman Lee sent a one-page letter on an A4 paper on the 27th June 2020 to thank the members. Through the letter titled, "To the beloved members of Daegu Church," Chairman Lee said, "I was delighted upon hearing the news of your intent to actively participate in donating plasma (blood) for the development of the vaccine for the cure of COVID-19. I believe that you are the ones who received the blood of Jesus."

He added, “I am very thankful to the government, which took charge of preventing the spread of COVID-19 and providing treatment for it. This is not something our church could resolve,” and, “I know that you [Shincheonji members in Daegu] have gathered your hearts in our collective wish to free all the people of the world from the pains of this disease.”

Chairman Lee also stated through this message, “This is the work that needs to be done as citizens of this country and as true believers. It is keeping the command of Jesus of loving your neighbor as yourself (Mt 22:39), and I am thankful that you have gathered your hearts for this good work and in making this decision that is like the light,” and, “Let us all pray in the name of Jesus to exterminate COVID-19 (Refer to Jn 14:13-14).”

Earlier, Shincheonji Church of Jesus has announced that over 4,000 members of the church, who has recovered from COVID-19, are willing to donate plasma (liquid portion of blood, with 55% of blood being plasma, 45% red blood cells) for developing a new treatment against the virus.

The amount of blood will be about US\$83 billion worth if the 4,000 patients donate 500 ml individually, according to the current transaction in the United States. “It is difficult to accelerate developing a vaccine for COVID-19 with only 200 recovered patients who expressed their will to donate blood. The massive donation from the recovered patients in the Shincheonji Church will solve the problem of the lack of blood for research,” said an official from Green Cross Pharma, a biopharmaceutical company in South Korea.

While it has been difficult to find plasma donors, Shincheonji members’ mass plasma donation can speed up the COVID-19 vaccine development process. Shincheonji members had been facing public criticism that they caused mass COVID-19 infection in the beginning when the virus started to spread. Shincheonji explained, “Chairman wants to thank the government for treating their members, while also thanking Daegu Church for volunteering with plasma donation to repay the government’s effort.”
