

Orlando Mind Reader Performs on Las Vegas Stage for Penn & Teller

Orlando, Jul 4, 2020 (Issuewire.com) - Central Florida's local mentalist, Keith Kong, will be featured on the CW's hit show Penn & Teller Fool Us. Fool Us, now in its seventh season, features the best magicians and mentalists from around the world as they entertain two of the biggest icons in the magic community. Kong will be featured on an episode that is set to air on July 13th and can be watched

nationwide on local CW networks at 9 pm Eastern Standard Time.

No stranger to the spotlight, Keith Kong has performed around the world entertaining corporate and private audiences alike. Originally from New York, he now calls Central Florida his home and this upcoming appearance positions him as one of the only Orlando based mentalists to appear on Fool Us. The show is hosted by Alyson Hannigan, known for her role in television shows like How I Met Your Mother, Buffy the Vampire Slayer, and the American Pie movie franchise. Keith has become accustomed to performing for celebrities as his style, personality, and skill set have all earned him notoriety among various socialites.

While some of his best effects are reserved for high-end parties and appearances, Keith's segment will feature an original, light-hearted piece as a tribute to the television shows incredible run. The show is filmed on location at the Penn & Teller Theater inside of the Rio All-Suite Hotel & Casino in Las Vegas.

If his appearance is anything like his long-standing reputation, hopes are high that Keith will be able to deliver a thoroughly entertaining and impactful performance piece.

"Keith worked at a conference for our firm in June 2017. He was excellent; the crowd enjoyed his performance and readings. Keith worked with our Marketing Team to understand our business and tailored his performance to align with our goals. He came prepared with his equipment; looked professional and did a great job interacting with the crowd and our staff. Would definitely have him back to perform again."
