

# Pave Your Way to The Career of Your Dreams with Campuscrop's Unparalleled Guidance

Act Ahead

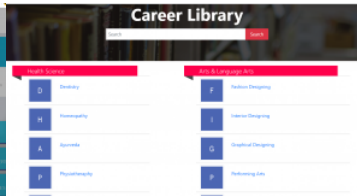

**Telangana, Jul 8, 2020 ([Issuewire.com](https://www.issuewire.com))** - Career coaching company, Campuscrop recently launched a new startup that is into career counseling using a technology platform paving the way for educational prospects into a more convenient and consolidated degree. With a combined experience of over ten decades as career coaches, they have now introduced career counseling using AI-powered technology shaping the future of young minds towards the right career paths.

From detailed career assessment to checking of career suitability across over 3500+ options, career exploration to predicting admission scopes across targeted colleges, campuscrop has integrated every area of career counseling and college application solutions. The company also recently became members with ACCPH- UK and APCDA- USA as a part of their global alliances. Apart from that, they have signed MoU with a couple of colleges across the country in an attempt to extend their e-learning services.

An interested client will be guided and taken through all the intermediate steps of identifying their knack and then will be provided with top choices of their suitable career and college predictors will guide students to respective target colleges of their choice. Assessments are carried out on the platform and certified experts at campuscrop will identify your personality and career instincts so that you can be assisted accordingly towards your goals. With an accuracy rate of 95% in their reports, they have emerged as one of the best career coaching and training organisations in all of the country.

Apart from career counseling, campuscrop offers prospects for education outside of the country with

placements guaranteed at colleges in Canada. E-learning programs for upgrading skills and running a certification program for career counselors and the curriculum is accredited by ACCPH- UK. They also appoint franchisees across the country and recruit career counselors to help their clients emerge with the best educational and career guidance. If you are looking to assess your interests and find the right path towards a fulfilling and flourishing career, visit their website at <https://campuscrop.in/>.
