

# pCloudy Part of Latest Gartner Report About Building Remote Testing Competency

pCloudy, a leading cloud-based continuous testing platform, part of latest Gartner report about building Remote Testing Competency.

**Dublin, Jul 6, 2020 ([Issuewire.com](https://www.issuewire.com))** - pCloudy, a leading *cloud-based continuous testing platform* for Mobile Apps today announced that it has got a mention in a marquee Gartner report “How to Build an Effective Remote Testing Competency (1).”

According to **Gartner**, “There is an acute need to master remote software testing. Application leaders must build a remote-software quality competency by optimising access and collaboration, investing in test environments and keeping their promises to the business”

For Mobile App testing, one needs a remote platform which can support device OEM - OS combinations along with the right tools to support continuous testing for App Teams.

“We believe this is a huge validation for our product capabilities and innovations in the App testing space,” said [Pankaj Goel](#), **CEO, Smart Software Testing Solutions**.

pCloudy is the flagship product company of SSTS (Smart Software Testing Solutions).
