

STEMSSA, Educating Sub-Saharan African Children 100% Free With Their New STEM ONLINE LEARNING PLATFORM (SOLP)!

“Educating African children to a global, universal curriculum standard”

London, Jul 31, 2020 ([Issuewire.com](https://www.issuewire.com)) - Today at the STEMSSA HQ, STEMSSA, announced the Soft-launch of their new STEM ONLINE LEARNING PLATFORM (SOLP)! that will enable 54.6 Million out of school students to receive an education irrespective of their geographical location or their financial status.

“This will be a game changer,” said Matthew Lee, Board of Directors at STEMSSA.

STEMSSA IMPACT STATEMENT

Many new students will benefit from this revolutionary STEM ONLINE LEARNING PLATFORM (SOLP)!. STEMSSA, a UK based non-profit company this week announced the soft launch (beta test) of the STEM ONLINE PLATFORM (SOLP) to a select few students for extensive testing. This trial period is expected to be complete by November 2020 ready for the official launch in January 2021.

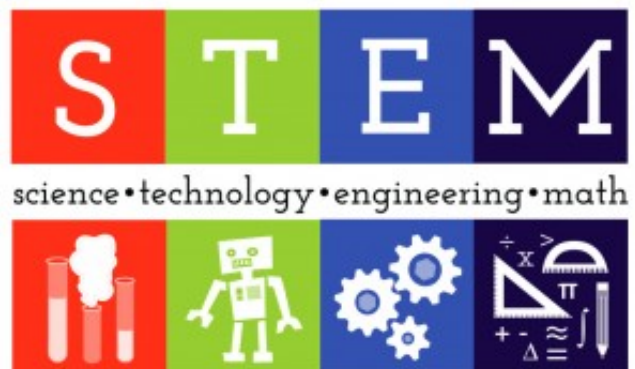

STEM ONLINE LEARNING PLATFORM (SOLP)! Availability

STEM ONLINE LEARNING PLATFORM (SOLP)! is an interactive age appropriate, gender neutral, non-discriminative, safe online environment so all students can prosper. STEMSSA is committed to delivering an accredited-international standard curriculum. STEM ONLINE LEARNING PLATFORM (SOLP) will be available for immediate access/download at www.stemssa.org (from January 1st 2021)

STEMSSA offers a wide range of online subjects such as Science, Technology, Engineering, Mathematics, Language lab and Arts designed to educate rural/remote African children.

“We know that quality early childhood experiences can impact positively on life choices and future career pathways” and “The extensive learning programme that STEMSSA implements will greatly improve what we already know about how a child digests information”. Ms Asheley Biggart said.

Additional information about STEM SUBJECTS and STEMSSA can be downloaded from the company website.
