SUPER ECOMMERCE STORE @ \$499

Ready-to-sell store | *One-time payment* | *Multivendor capabilities*

Multilingual | *Mobile-ready*

New York City, Jul 28, 2020 ([Issuewire.com](https://www.issuewire.com)) - Techosquare recently launched SwiftKart, its much-anticipated online store launcher with a special discount offer. [The limited-period discount](#) is applicable to its Launch Swift package and guarantees 50% savings to the first 50 entrepreneurs or businesses that choose to build their ecommerce platform with Swiftkart.

“We are really excited to release SwiftKart with this special offer since it will help small business and budding entrepreneurs take their business online at a reasonable price.”, says Mr Harish, CEO of TechoSquare. “Ecommerce is the future of buying and after COVID-19, the need has become even greater. Whether you want a simple online store to sell your own products or a multivendor platform to host hundreds of vendors, it is all possible with SwiftKart.”

SwiftKart is a powerful platform to launch secure, scalable, and responsive online stores. The e-commerce platform launcher promises robust search functionality, SEO capabilities, multiple payment gateways, multi-seller capabilities, and much more. SwiftKart was conceptualized after analyzing the leading online store builders and was crafted to un-complicate the whole process of building an online store. Talking about its features, Senior Developer at the web development firm said:

“The focus was never on integrating as many features as possible to SwiftKart. It was always on integrating what really matters for the core experience. For instance, we felt the language barrier often holds back online stores from capturing multiple language-diverse regions. That’s why we added multilingual capabilities to SwiftKart and gave store owners the freedom to cater to different audience groups in multiple languages.”

Other major features of SwiftKart include vast product listing capabilities, shopping cart integration with SSL certificates, advanced search, multi-vendor capabilities, product comparison, and 100% scalability. SwiftKart’s basic plan is priced at US\$999 but under the special discount, Launch Swift package can be claimed for US\$499 only. Since 15 copies have already been sold, only 35 are left to be claimed.
