Coimbatore, Jul 7, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Author Dr. Prasanna Vignesh recently released his debut book titled “Oh boy! You’re in trouble...” reflecting on the various stages and encounters of life through an engaging storyline. The book is a coming-of-age romantic saga that takes the readers on a journey of relatable and complex circumstances that life throws at us and gradually coaches us to take control of our decisions and actions.

The book is a beautiful saga of emotional realization and passion that contributes to the evolution of one’s personality over the years of existence. The story revolves around the protagonist, Ravin Vinayak somewhere in his early twenties who take the risky plunge of pursuing his passion for storytelling away from the comfort and subdued conveniences of city life. His story follows an intense course of social pressure, love, and reflection that collectively pushes him to break the shackles of standardizations and chose a life of uncertainty and tribulation. The author has accurately captured the highs and lows of life that is intrinsic to everyone’s journey and Ravin is presented as the reflection of mankind’s relentless race for interpersonal and intrapersonal solitude. The story also has the readers’ jolt, a twist that would thematically create the linear line between reality, Conviction, and dreams. Set in the picturesque Tamil Nadu town of Coimbatore, "[Oh boy! You’re in trouble...](#)" emerges as a light-hearted reach with a thematic depth of literal and figurative balance.

The author, Dr. Prasanna Vignesh hails from Coimbatore and is a practicing physician. His tryst with writing was developed by his grandfather and soon, he was accommodating his emotions and physiological interpretations through the notoriety of words, rhymes, and thematic storylines. This book was written through the course of his medical degree and finally reached the publisher’s desk for an eventual release. The book is loosely based on the author’s journey through life and society as the protagonist imbibes his resilience and conviction in the growth of his character. The story also stands ideal in a time where the juxtaposition of one’s own virtues and integrities between personal and social space becomes a matter of eternal bewilderment.
