

The Electrifying Angels Flight

THE ELECTRIFYING ANGELS FLIGHT

—— Joy Munson ——

Monmouth County, Jul 15, 2020 ([IssueWire.com](http://www.IssueWire.com)) - *The Electrifying Angel's Flight (sequel) to The Electrifying Demise Six years have passed, and Angel Flight Gulf Stream medically equipped air transport plane fleet has added Angel Flight Four and Angel Flight Six.*

The people in The Dalles, Oregon, are law-abiding citizens. The stories unfold, and new residents are welcomed, each having a fascinating history.

The Electrifying Angels Flight is an engrossing and exceptional story about Michael Murphy & Son Electrical Contractors business who was the financier for the formation of Mike Murphy (the son) in realizing his dream of becoming a MediVac service to people free of any charges.

The story covers conversation of general, getting acquainted subjects. It progresses to a short flight that involved teaching to achieve "smoothe" touchdowns for the comfort of ill or injured patients arrival at hospitals, etc. for urgent care.

Along the way, many shadowy characters and policemen have encounters of different degrees and behaviors. Many reverent scenes occur and are heart-warming and are good examples for any ready to notice. Brotherly love and counting are blessings are only two of many.

Joy Munson enjoyed her life as a homemaker, Sunday school teacher, Red Cross Water Safety instructor and lifeguard; founded a YMCA aquatic arts and synchronized swimming group and now retired, handcrafts, needlework, gardening and good health is a blessing.
