

Another Milestone for Chart Media for reaching 30 Million in Q1

Chart Media crossed another milestone in 1st quarter of 2020 with 30 Million Customers

Batavia, Aug 11, 2020 (Issuewire.com) - [Spectrum](#) is the largest number of active users ever in our history. This is a significant milestone for us and we are thrilled that we are now well on our way to 100M active customers.

Over 40% of their users are accessing the portal via mobile devices with 70% of all traffic from mobile devices.

The company ([Time Cable](#) Network) is in an exciting phase of growth as we work to become the fastest growing network provider in the U.S.

A big thanks to the amazing, supportive customers. The growth over the last year was amazing as we were able to achieve nearly 30 Million customers in Q1. We are seeing huge demand from large enterprises in the cloud, small enterprises, and enterprise clients. In fact, we're seeing tremendous growth in [Road Runner](#) Channel as we're getting a huge response in every part of the business. But that's all to come!

We have great plans on how to grow our Business Channel with more customers.

With our Vision & Value as the bedrock of our growth, we will drive the growth of the global digital market.

This growth is coming from three big shifts in the marketplace, all bringing customers to our platform.

1) The global consumer shift.

Digital is evolving from a channel to a lifestyle for consumers.

With the growing prevalence of consumption, people are using apps & platforms to watch the latest movies, listen to the latest music, play the newest games, socialize, and make purchases.

Our Value Platform gives customers more ways to spend and more ways to stay connected with brands.

2) The mobile ecosystem.

With 1 Billion connected devices projected to be connected in 2020, we are seeing the emergence of the mobile ecosystem - from mobile to mobile apps and the mobile games that people want to play.

3) The value platform.

With customers increasingly demanding more value for their digital spend, brands are moving to the digital value platform to make it more convenient to reach, interact, and convert with their customers.

So, where does this leave us?

About the Company:

[Chart](#) Media is the global leader in telecommunication and constantly working on providing the best internet service across the united states. Every Road Runner email login customer gets a main or primary email account and a certain number of additional accounts along with storage space according to the broadband subscription package (basic, standard, and premium). The additional accounts, ranging from 5 to 25 can be set up as sub-accounts.
