

Clear Software becomes Pega® ISV Partner

Clear Software

Indianapolis, Aug 26, 2020 ([Issuewire.com](https://www.issuewire.com)) - Clear Software, a leader in systems integration and process automation, today announced that it has joined the [Pega Independent Software Vendor \(ISV\) program](#). The Pega ISV Partner program extends customers' investments with Pega solutions with readily available, out-of-the-box solutions to better address gaps in their processes and accelerates their time to market.

Pega is the leader in cloud software for customer engagement and operational excellence. The world's most successful brands rely on Pega's AI-powered software to optimize every customer interaction on any channel while ensuring their brand promises are kept. As a Pega ISV, Clear Software integrated its ClearProcess platform with the low-code [Pega Platform™](#) to help save clients time and money with more than 6,000 pre-delivered integrations into core business applications such as SAP, Oracle EBS, PeopleSoft, and Salesforce. ClearProcess cloud-enables organizations' on-premise systems so employees can perform common activities from any secure location, including creating, changing, and retrieving data related to customers, sales orders, invoices, vendors, and more.

"We are delighted to be partnering with Pega to help extend the reach of the Pega Platform into the SAP and Oracle ecosystems," said Jon Gilman, CEO of Clear Software. "Our deep systems integration expertise coupled with Pega's business process management expertise will allow our collective customer base to streamline and simplify the way they do business."

"We are seeing the rise of the 'have-to-have' economy where enterprises are devising very clear paths forward for investment to ensure post-pandemic success," said Elena Christopher, Senior Vice President at HFS Research. "At the top of the list is optimizing investments in existing technology. Clear Software's partnership with Pega squarely supports these burgeoning optimization efforts by bringing Pega clients thousands of prebuilt automation into systems such as SAP and Oracle, enabling swift integration and enhanced results."

"As organizations face a new era of competition and rapid innovation, there is an impending need to implement and complete their digital transformation strategies. Partners like Clear Software are critical in helping clients address gaps within their organization for a more comprehensive approach," said Rupen Shah, VP, ISV alliances and strategy, Pegasystems. "This partnership with Clear Software is beneficial in helping joint clients more easily unify their organizations to better meet their business goals and the needs of their customers."

About Clear Software

Clear Software is on a mission to simplify business software and make people more productive. Their Intelligent Automation platform enables organizations to streamline core business processes across software such as SAP, OracleEBS, Salesforce, and many other cloud and premise applications. Their core products are:

- ClearWork - a no-code Business Process Management Software (BPMS) that orchestrates business processes into a seamless digital experience. ClearWork gives workforces simple web pages to get their jobs done quickly with powerful automation hidden behind the scenes.
- ClearProcess - a low-code Integration Platform-as-a-Service (iPaaS) that automates tedious tasks and complex workflows across systems. ClearProcess enables automation ranging from a single step task to an end-to-end business process that may involve hundreds of tasks.
