Thank you to all backers from more than 12 countries.

- ULTRA LIGHT
- COMFORTABLE
- ONE SIZE FITS ALL
- EASY TO BREATHE

**Quebec, Aug 25, 2020** ([IssueWire.com](https://www.issuewire.com)) - Face masks are the need of the hour; however, some businesses have turned this pandemic situation into a cash-generating opportunity by selling low-quality face masks at relatively higher prices. Hence, **Dermagate Inc.** has come out as a savior, providing the finest Silver Ion Face Masks that encounter the needs during Covid-19 pandemic. To ensure that those in desperate need get to wear these protective gears, the organization has collaborated with Indiegogo for a crowdfunding campaign <https://www.indiegogo.com/projects/light-reusable-self-sterilizing-silver-face-mask#/>. The company believes in serving the global community and thus, it has organized this crowdfunding campaign. This initiative has been taken for the greater good and to ensure that we as a community leave a better world for our future generations.

The face masks offered by **Dermagate Inc.** are ecological and easy-to-breathe, ensuring that the users face no breathing problem while performing physical activities, such as running, exercises, etc. The self-sterilizing and long-lasting features of these masks make these must for every individual who has to go out of their residences. These features have already caught the attention of many leading to a huge demand for the Silver Ion Face Masks. Over the past few months, these self-sterilizing face masks have already replaced many non-medical face masks due to its durability and hassle-free maintenance. Now, you don't have to waste any time searching for new masks to replace the old ones – these silver ion masks can be worn for a long time without even worrying about the quality getting reduced.

Peace of Mind – the Silver Ion Face Masks are manufactured following the same technology that is used for making silver wound dressings. Not only this but the material also helps in treating acne and other skin disorders, thus, you do not have to worry about any discomfort while wearing these. The face

masks of **Dermagate Inc.** have been tested for more than 100 washes, showing no reduction in the antimicrobial properties. The lightness of these face masks are comfortable enough to carry for the entire day and strong enough for daily use. Termed as the 'real jewel of the mask', these nylon made masks are coated with 99.9% pure silver and can be worn for long hours without having any skin irritation.

Dr. Michel Aube, the Chief Science Officer of **Dermagate Inc.** said, 'The mask is very easy to wash. It kills germs by itself because the intrinsic antimicrobial property of the mask is due to the silver ions released from its fabric which is activated by steam and water.' To this, Gaetan Houle, the president of the organization added, 'The aim of the Light Reusable Self-Sterilizing Silver Face Mask of Dermagate is to help people to keep a normal life without embarrassment due to the pandemic.' Place your first order of these eco-friendly face masks by visiting [www.facemaskideal.com](http://www.facemaskideal.com) and strengthen your guard against the Coronavirus.
