Safety is always first, with an emphasis on patient education and participation in their own rescue.

The doctor's original training was in chiropractic, having graduated from Texas Chiropractic College with his Doctor of Chiropractic (DC) degree. Since then, he has pursued multiple disciplines of study, training, and mastery. He is certified in Manipulation Under Anesthesia (MUA), Medical QiGong, and "Athletes in Industry" for corporate wellness and accident prevention.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain and back pain. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself without the use of medication or surgery.

On a more personal note, he is happily married to the love of his life, Rita, and is the proud father to six wonderful children.
