

Gail Johnson, RN, Registered Nurse

Get to know Registered Nurse, Gail Johnson, who serves patients in Cridersville, Ohio.

New York City, Aug 5, 2020 ([IssueWire.com](https://www.issuewire.com)) - Being a registered nurse, Gail stays up-to-date with new tools and technology to help provide the best care to patients and families, and the best support to doctors and other healthcare professionals. Possessing excellent communication, professionalism, and cultural awareness, she serves as an independent Medicaid home health provider in Cridersville, Ohio.

Medicaid provides for skilled, intermittent, and medically necessary home health services for eligible recipients. The focus of home health services is to assist the recipient in returning to an optimum level of functionality.

Before embarking on her professional journey, Gail earned her nursing degree from Rhodes State College, which is a public community college in Lima, Ohio. Since then, she has been advancing her expertise and skills in order to give her patients the best care.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
