New South Wales, Aug 9, 2020 (Issuewire.com) - The Mind Body Reset Master today announced Truly Online, Hypnotic, Virtual Massage, as a new online service. This Virtual Massage is a way for anyone to truly experience the sensations of relaxation massage... online... and offers a new way for anyone who is self-isolating or mandatory isolating due to Covid 19, too sick, ill or fearful to leave home and wants to ease the physical, mental and emotional tension and stress that such isolation invariably brings, where-ever you are in the world.

“This is a game changer for anyone isolated at home or even for those who just don’t feel safe attending public health facilities at this time.” says Graham Cross, Founder of The Mind Body Reset Master. “This is an experience anyone can truly enjoy from the comfort, safety and privacy of their own home, office, workplace or as a family.”
