

GVK Mumbai Airport News Report: Mumbai airport- T2 building won American Institute of Architects Award 2020

Mumbai, Aug 19, 2020 ([IssueWire.com](https://www.issuewire.com)) - GVK Mumbai Airport, Terminal-2 building has been facilitated with a prestigious American Institute of Architects Award 2020 under the Architects Award category. The award has been conferred because of the outstanding design and avant-garde architecture of the airport.

The AIA confers awards to licensed architects for their outstanding performance in building architecture and GVK Mumbai Airport bagged it for the exquisite designing and record-breaking handling of 40 million passengers annually. The award was handed over to one of the top-notch American architecture firms, Skidwell, Owings and Merrill LP (SOM) and GVK for building the new passenger terminal building at the Mumbai Airport and turning into eye-candy for all the passengers. The building has successfully completed 7 years now and since then, it has proved to be one of the best facility provider airports in the country.

Every passenger who has visited the airport before knows the airport because of its breathtaking infrastructure, an amalgamation of traditional and contemporary designs, and the great hosting. The terminal is lined with India's inherent cultural beauty, the stunning artistry and the intricacy we are known for. The traditional handcraft patterns at various interior fixtures of the airport are an example of the intricate detailing. The 'Jaya He'-an artwork spread over three km of wall display-features the country's rich cultural heritage which can be viewed and appreciated by the passengers.

Not to forget, the GVK CSMIA is the second busiest airport in India and it has been continuously and consistently upgrading CSMIA to an airport that delights its guests by offering best in class comfort and convenience.

It's not the first time that GVK Mumbai Airport has won something on the grounds of outstanding architecture and performance.
