

Indiaitchannels.com fruitfully accomplished 5000 registrations with full-fledged Ongoing B2C creation

Creating history with the registrations of partners

Delhi, Aug 31, 2020 (Issuewire.com) - Indiaitchannels, a B2B and B2C platform IT community, has transformed the complete way of how IT community work. It has efficiently surfaced the road for IT partners in initiating their e-business. Now, IT/Mobile/ Surveillance and security sectors are connecting with one another efficiently and consumers as well.

Since the platform has been launched, it is creating history with the registrations of partners. Registered partners without any hassle are now enjoying their own catalogue page. They are proficiently offering their latest services and updates to the customers about their products. The outcome of launching the platform has proved to be delightful and received more than 5000 registrations till date.

With the success rate of registrations, it was anticipated that 5K registrations will be achieved by 15th of August and the platform has capably crossed the mark. After obtaining such an astonishing response from IT partners across the country it has been now believed that the platform will receive 10K registrations by the end of this year.

Alok Gupta, the managing director or Unistal and Indiaitchannels initiator stated, "It has been an amazing journey up till now and we strive for accomplishing more registrations in near future. The results we have received now is boosting the morale of team hence the emphasis are more on putting additional efforts".

Registrations count is increasing day by day at rapid rate whereas B2C catalogue page launch is also running at full-fledged speed. The B2C catalogue page was launched on the 1ST of August for the registered partners and the login details with passwords were shared so that they can begin the process of creating own catalogue page.

The creation of B2C catalogue provided an opportunity to the partners in expanding the business online and reaching the customers without any interventions. The B2C page launch has assisted the IT partners in having their unified website where they can easily access and control their IT products in catalogue.

After the successful launch of B2C catalogue page, now platform is ready to launch the B2B (Business-to-Business) catalogue page. With this page, partners can connect with each other and can initiate the business dealings. The B2B page will be launched on 15th of October, 2020. The wait is not so far and partners can begin with the B2B page creation soon.

Final Say

Indiaitchannels has been gaining the immense popularity all over the country because it is unique idea and innovation. Since the idea is exceptional and has generated a new hope among the IT community during the pandemic situation so the team is putting their extra efforts for its success and growth. The platform has received more than 5000 registrations till date and numbers are counting every day. On the other hand, B2C page is running magnificently and would assist the business enhancement with B2B page which is about to be launched. The efforts and hard work of team has proficiently managed to obtain the anticipated success. In the coming future, the platform will continue offering the benefits and

amazing services to IT community.
