

Kamerycah, Inc. Launches New Website For Umi No Shizuku Furoidan

Website offers a better user experience, frequent news updates, research insights, and more

Torrance, Aug 10, 2020 ([IssueWire.com](https://www.issuewire.com)) - Kamerycah, Inc. recently released its new website, unveiling a new range of pages and access in seven different languages. Now, visitors can choose from English, Spanish, Japanese, Korean, Chinese, Vietnamese when they visit the site. Additionally, the website now offers a direct support line in the chosen country's native language. This website unveiling comes after Umi No Shizuku has reached new acclaim due to its recent research findings.

New results suggest that the incorporation of Furoidan – more specifically, the Furoidan/ Agaricus blazei blend that Umi No Shizuku is famous for—might be responsible for supporting health. Studies on the mixture began as interest peaked in the lifespans of the residents of Okinawa, Japan. The area is known for being home to some of the oldest people in the world, and the incorporation of Furoidan in their diet likely contributes to their lifespan.

The new website was created with the intent to make Umi No Shizuku Furoidan supplements more widely accessible worldwide. Although other Furoidan supplement providers exist in the United States, Korea, China, and other countries, the origins of their Furoidan are often dubious. Kamerycah, Inc.'s Furoidan blend sources from pure Okinawan seaweeds. The website seeks to be as transparent as is possible regarding the ingredients within the blend.

Additionally, the website sought to highlight the work that Kamerycah, Inc had done in coordination with the NPO Furoidan Research Institute. Research led by Dr. Daisuke Tachikawa and Dr.Yoshiyuki Miyazaki has been integral to showcasing the benefits of the supplement.

Umi No Shizuku Furoidan has been available in the United States for many years in capsule, powder, and drink form. Please visit <https://www.kfuroidan.com/> to experience the new site and explore the benefits of Umi No Shizuku Furoidan.

About Umi No Shizuku: Kamerycah, Inc. is a leading Furoidan supplement company. Established in 2003 in Torrance, California, the company has expanded worldwide over the past seventeen years. Distribution centers can be found in New York (USA), Canada, Taiwan, Hong Kong, Korea, Singapore, and Vietnam. Umi No Shizuku Furoidan incorporates a proprietary blend of brown seaweed extract and Agaricus blazei. Umi No Shizuku is committed to improving its product and works with the NPO Furoidan Research Institute to ensure its supplement uses the most scientifically-accurate ingredients.
