

## Kimberly Rossi, AGNP, a Nurse Practitioner with Logistics Health Incorporated

Get to know Nurse Practitioner, Kimberly Rossi, who serves patients in Chicago, Illinois.

New York City, Aug 28, 2020 ([Issuewire.com](https://www.issuewire.com)) - Having always felt a calling to help others, Kimberly

is a nurse practitioner working with Veterans. She is affiliated with Logistics Health Incorporated.

Motivated each and every day by her patients, she considers it a privilege to be in a position to be able to help them. “Holistic care of the mind, body, and spirit are very important and each day, I try to make a positive impact on the lives of my patients” expressed Kimberly.

Following the completion of her Bachelor of Science in Nursing degree at the University of Iowa in 2015, Kimberly’s career started in the Neurosurgical Intensive Care Unit at Northwestern Memorial Hospital in Chicago, Illinois. She then transitioned to Orthopedics and General Surgery while starting graduate school at Loyola University, earning her Master of Science in Nursing degree in December of 2019.

Attributing her success to her positive attitude and work ethic, she is willing to go above and beyond to meet the needs of her patients. Positivity is also very important to her and contributes to better outcomes for her patients.

In order to stay up to date in her field, Kimberly remains a member of the Sigma Theta Tau International Honor Society of Nursing, which is the second-largest nursing organization in the world with approximately 135,000 active members.

An Adult-Gerontology Nurse Practitioner (AGNP) is a nurse practitioner who has graduated from a graduate-level nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a Nurse Practitioner license. AGNPs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other AGNP job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients’ symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
